

APCO-X ULTRA

APCO-X ULTRA is our most advanced indoor air treatment system. It combines UVC light and our proprietary activated carbon technology to safely & effectively neutralize odor-causing VOCs and biological contaminants. This duct-mounted system treats the air and extends the life of the HVAC system by keeping it clean and efficient. APCO-X Ultra features a 3-year UVC lamp, 65% more carbon surface area, LED lamp status & lamp life indicator, 4 position rotatable cover, and a performance increase of 33%. Both models are 24V and include a 120V transformer.

PART NUMBERS
TUV-APCOX-U 18-32 VAC, Single 3 yr (TUVL-315)
TUV-APCOX-UD 18-32 VAC, Dual 3 yr (TUVL-315)

APCO ONE

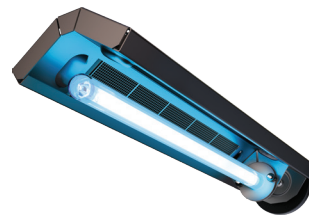

The APCO-ONE system is designed to improve air quality and HVAC equipment performance and efficiency. Everything you expect from APCO®, now with a polycarbonate housing and lamp status and lamp life indicator. 24V system with included 120V transformer and 2-year UVC lamp.

PART NUMBERS
TUV-APCO-ONE 18-32 VAC, Single 3 yr (TUVL-315)

APCO-X MAG

APCO-X MAG is similar in function and features to APCO-X but is mounted internally in the HVAC system using a powerful anti-vibration coated magnet. It combines a 3-year UVC lamp and our proprietary activated carbon technology to safely & effectively neutralize odor-causing VOCs and biological contaminants. It treats the air and extends the life of the HVAC system by keeping it clean and efficient.

PART NUMBERS
TUV-APCOX-MAG15-ER3 18-32 VAC, Single 3 yr (TUVL-315)
TUV-APCOX-MAG15-ST3 120-277 VAC, Single 3 yr (TUVL-315)
TUV-APCOX-MAG15-DT3 120-277 VAC, Dual 3 yr (TUVL-315)
TUV-APCOX-MAG11-ER3 120-277 VAC, Single 3 yr (TUVL-311)
TUV-APCOX-MAG11-ST3 120-277 VAC, Single 3 yr (TUVL-311)

APCO MAG

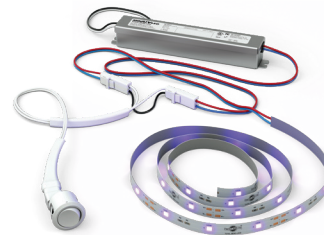

APCO MAG15 uses the same UVC light and carbon cells as the original APCO but is mounted internally in the HVAC system using a powerful magnet. APCO MAG11 is shorter and is intended for use in smaller air systems (1-5 tons). All models feature a 2-year UVC lamp.

PART NUMBERS
TUV-APCO-MAG15-ER2 18-32 VAC, Single 2 yr (TUVL-215)
TUV-APCO-MAG15-DT2 120-277 VAC, Dual 2 yr (TUVL-215)
TUV-APCO-MAG11-ER2 18-32 VAC, Single 2 yr (TUVL-211)

Mini UV LED

Mini UV LED is the first-of-its-kind UV light LED system for mini-splits and similar limited space applications. Like all A/C systems, mini-splits are prone to internal mold growth and microbial contamination, particularly on and near the blower wheel. 40" LED strip (cut-to-measure) in Mini UV LED is designed to keep surfaces clean without impacting plastic materials.

PART NUMBERS
TUV-MINI-LED-SW

ENHANCE-ION

ENHANCE-ION enhances the ability of the HVAC filter to capture airborne contaminants and pollutants such as PM2.5 (Fine particulate matter less than 2.5 micrometers in diameter), as well as airborne contaminants and pollutants effectively turning a standard filter into a higher-efficiency filter. 24 VAC.

PART NUMBERS
TUV-BIPO-ER

Blue-Tube UV-X

Blue-Tube UV-X is our most advanced HVAC UV light yet, with a 3-year UVC lamp and an improved electronic power supply. It's the simple, safe, and effective way to keep the HVAC system clean and improve indoor air quality. The powerful UVC light neutralizes germs continuously and is known for its reliability, ease of installation, innovative features and quality components.

PART NUMBERS

TUV-BTX-ER3
18-32 VAC, 3 yr (TUVL-315)

TUV-BTX-ST3
120-277 VAC, 3 yr (TUVL-315)

Blue-Tube UV

Our patented Blue-Tube UV is popular because it works. It's the simple, safe, and effective way to keep the HVAC system clean and improve indoor air quality. The powerful UVC light neutralizes germs continuously and is known for its reliability, ease of installation, innovative features and quality components. Blue-Tube UV uses a 1 or 2-Year UVC lamp.

PART NUMBERS

TUV-BTER
18-32 VAC, 1 yr (TUVL-115)

TUV-BTER2
18-32 VAC, 2 yr (TUVL-215)

TUV-BTST
120-277 VAC, 1 yr (TUVL-115)

TUV-BTST2
120-277 VAC, 2 yr (TUVL-215)

AHU Series 1

The AHU Series 1 system is installed in the central air system where it neutralizes airborne viruses and bacteria. It also suppresses mold growth on the cooling coils and surrounding areas while improving indoor air quality. It includes a heavy-duty power supply and is available in single or dual lamp configurations for more comprehensive UV light disinfection.

PART NUMBERS

TUV-100S-I
120-277 VAC, Single 1 yr (TUVL-115)

TUV-200S-I
120-277 VAC, Single 2 yr (TUVL-215)

TUV-100D-I
120-277 VAC, Dual 1 yr (TUVL-115)

TUV-200D-I
120-277 VAC, Dual 2 yr (TUVL-215)

Purity Low Profile

Purity Low Profile Polarized Filtration System (PLP) offers relief from particulate indoor air pollution. It is the perfect retrofit to replace your 1" HVAC filter with a high efficiency whole-house air filtration system.
