

Christ the King Lutheran Preschool  
Growing and Learning with God's Guidance Since 1971

January 21, 2005

Deer Jupiter-Tequesta A/C,

I wanted to drop you a line and share with you how wonderful the Fresh-Aire UV Light System you installed at Christ the King Preschool is. I am amazed at how much it has improved the quality of air in my preschool. Our beginning of the year illnesses were minor compared to years past, but even more amazing is the extremely low flu rate I have had this year. We have had only one sick child this entire season. In a preschool of 51 students and 12 staff members, that's GREAT! Thank you for sharing this valuable product with us and taking the time to explain all the benefits along with it. Should you need any testimonials regarding the Fresh-Aire UV light System, count me in.

We look forward to doing business again with you in the near future.

Sincerely  
Julie Reed  
Preschool Director
