Software Resource Guide: Design & Engineering Software, BIM, Estimation Software, Business/Service/Sales Management Software.

Nest

Meet the second generation Nest Learning Thermostat. It's compatible with 95% of 24V systems and even has software designed to make high efficiency systems shine. True Radiant gives radiant customers even heat and a predictable schedule, Heat Pump Balance automatically helps heat pump customers save, and Airwave can dramatically reduce AC runtime up to 30% while still

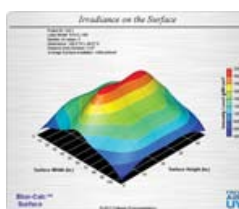

keeping customers cool, sources report. Best of all, customers can control Nest from their phone, tablet or laptop with a free app. They can turn up the AC, tweak their schedule or see their 10-day energy history from anywhere. certified.nest.com circle 158

Dexter + Chaney

Dexter + Chaney releases its new Spectrum project management software. It's available as part of the suite of applications that comprise the company's Spectrum Construction software product line.

The Spectrum Project Management application covers numerous project management functions, including job cost and progress reporting, project logging, submittal and RFI tracking, and project document storage and sharing.

Fresh-Aire UV

Fresh-Aire UV has developed Blue-Calc, a UV-C light design and analysis service using state-of-the-art sizing software for HVAC engineers and contractors. Blue-Calc's unique web service provides calculations of both airborne and cooling coil surface microbe disinfection efficiencies from UV-C light exposure and generates detailed color chart and graph image

printouts for building owner presentations.
