

**THE ONE IAQ SOLUTION FOR YOUR HOME!**

The APCO-ONE system is designed to improve air quality and HVAC equipment performance and efficiency. Everything you expect from APCO®, now with a polycarbonate housing and lamp status indicator. 24V with included 120V transformer.

**FEATURES/BENEFITS**

Continuously improves Indoor Air Quality	Continuously treats the air in the entire home and is virtually maintenance free (2-year UVC lamp replacement only)
Keeps coil & drain pan clean	Long lasting, safe and effective
Increases HVAC life & efficiency	For up-flow, down-flow & horizontal installations
UL2998 validated for zero ozone	Scientifically tested ensuring safety
Continuously treats the whole-system	Disinfects HVAC equipment (which is prone to mold and biofilm). Microbial contamination robs system efficiency and performance and contributes to poor IAQ
Advanced UVC lamp	2-year advanced encapsulated quartz UVC lamp
LED Lamp-life status indicator	Indicates when to replace lamp
EverCarbon™ Cells	Lifetime proprietary carbon catalyst
24VAC operation	Packard transformer included

**LED STATUS INDICATOR**

**SAFELY AND EFFECTIVELY TREAT THE OTHER 2/3RDS**

Conventional filters are only effective against particulates, like dust. APCO-ONE is proven to safely reduce both biological and chemical contaminants inside the air system and throughout the building. Together, they address 99+% of the contaminants in the air.

**CLEAN AIR**

**CLEANS THE COIL AND DRAIN PAN**

Helps keep the HVAC system running efficiently and extend its life.

**APCO-ONE Helps Neutralize Mold, Bacteria, Viruses, and Allergens**
