

FRESH-AIRE UV[®] CS

APCO[®] RACK KIT

ODOR REDUCTION

Add the APCO Rack Kit to the Fresh-Aire UV Commercial Core System to neutralize odors and toxic VOCs (volatile organic compounds) in the airstream. The APCO Rack Kit features the same carbon catalyst cells as the award-winning residential APCO[®] family of air treatment systems. The combination of UVC light with our proprietary carbon cells transforms odor-causing VOC molecules into harmless water vapor and carbon dioxide without the use of harmful ozone.

FEATURES

- Neutralizes odor-causing VOCs in the airstream
- Lifetime Carbon Catalyst Cells
- Does not product harmful ozone
- Sized for 18, 24, 32, 46, and 60 inch lamps

BENEFITS

- Removes odors & toxic VOCs from indoor air
- Improves indoor air quality
