## The Indoor Air Quality Expert

AIRE-FOIL
UPPER AIR UVC DISINFECTION

UPPER AIR DISINFECTION FOR OCCUPIED SPACES

The need to protect occupied spaces from airborne pathogens has never been greater. Fortunately, Fresh-Aire UV germicidal lights have been proven to neutralize viruses, mold, and bacteria within seconds of exposure.

The Fresh-Aire UV Aire-Foil features 15" - 60" high-output UVC lamps and is wall-mounted near ceiling height. Upper air UV-C disinfection is an ideal method to mitigate the spread of microorganisms in occupied spaces. As air naturally heats and cools it moves by convection, which continuously circulates it throughout the space. Airborne viruses and bacteria are sterilized when exposed to the UVC light field.

The Aire-Foil unit is installed at a minimum height of 7' and is designed with louvers that shield occupants from UV exposure by projecting UVC light rays parallel to the plane of the ceiling.
DESIGNED & ASSEMBLED IN THE U.S.A.

FRESH-AIRE UV
LIFETIME WARRANTY
ALL PARTS EXCEPT LAMPS

FRESH-AIRE UV
OZONE FREE

FEATURES/BENEFITS

|	
Safe	Louvered UVC light is safe for occupied spaces Produces no harmful ozone
Effective	Neutralizes airborne viruses & bacteria APCO technology for odor and VOC reduction
Quiet	Air convection for silent operation
Practical	Single UVC germicidal lamp length: 15", 24", 32", or 60" Quick & simple installation 2 year UVC lamp life
Durable	Robust aluminum construction
Lifetime Warranty	Ensures years of trouble free operation

Neutralizes Mold, Bacteria, Viruses, and Allergens
