**BLUE
TUBE UV**

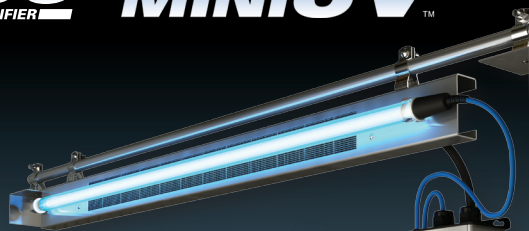

APCO
IN-DUCT AIR PURIFIER

**FRESH-AIRE
MINI UV**

Award-Winning APCO® Technology

The UV-C light and activated carbon cells in Fresh-Aire UV® APCO® purify the air **without ozone**. APCO's revolutionary design is proven effective against odors, VOCs, and biological contaminants.

The APCO® Rack System (part of our commercial series) uses the same adsorptive photocatalytic oxidation technology as our residential models, only larger. Choose 32", 46", or 60", and high-output lamp options for surface and/or airborne disinfection.

Made in USA
