

APCO® In-Duct Air Purifier

Winner of the 2011 AHR Innovation Award for Indoor Air Quality, APCO features UV light combined with activated carbon cells for **Advanced PhotoCatalytic Oxidation**. This ozone-free system is effective on odor causing and toxic VOCs as well as microbial contaminants.

Blue-Tube UV®

The most popular germicidal UV light product in the world. Keeps the central air system clean and reduces airborne contaminants. Choose from high or low voltage power supplies and several lamp options. Includes magnetic mounting bracket for easy, flexible installation.

Mini-UV System™

Award-winning UV light system for mini-splits & other limited-space applications features a miniature shielded UV lamp only 9" long with a 3/8" diameter - small enough to fit in the tightest of spaces.

Fresh-Aire UV® AHU Series 1

Similar to Blue-Tube UV® but comes with a heavy-duty water-resistant power supply that can support dual, triple, and quad lamps.

Fresh-Aire UV® Purity™

Our combined UV light and filtration system offers the ultimate enhancement to indoor air quality. The system features 4" filtration, UV sterilization, and PCO odor neutralization in a stackable filter housing.

Made in USA

Standard Commercial UV Light System

L-brackets or panel mount for easy installation.

Tubular Rack System

Mounts using 1/2" EMT tubing for cost-effective, flexible installations.

Perpendicular

In-line

APCO® Rack System

Our most advanced system. Award-winning APCO® technology fights odors and VOCs. Normal or high output lamps (for duct mounting).

Airborne Duct System

High output lamps for maximum airborne kill. Mounts In-line with, or perpendicular to, the duct with optional APCO modules.

Tight-Fit Kit™

Ideal for PTACs, fan coils, & wall-mount systems.

Environmental Surface Disinfection System

ESDS is a wall or ceiling-mounted fixture which provides high-output surface disinfection in unoccupied spaces such as operating rooms, veterinary facilities etc.

Fresh-Aire ICE UV®

The first germicidal UV light system for ice machines. ICE UV works around the clock, killing germs and saving money on ice machine maintenance.
